

KSA POWER RELATED LINECARD

High Density DC/DC converters - Military - COTS - PFC - Front Ends - Accessory Filters - Watts to Kilowatts - AC/DC & DC/DC - 1 to 20 Outputs - Factory and Field Configurable - NEW VI-Chip (Factorized POWER) - EMI Solutions.
www.vicorpower.com

High Efficiency – Single, dual & Triple output DC/DC and AC/DC converters. Targeting performance oriented telecommunication, industrial control, data processing, transportation, medical military and test equipment markets, although our converters are used in virtually every industry requiring low to medium power voltage conversion in the 0.25-125 w range.

RichTek is a global leader in the design and manufacture of analog integrated circuits (Ics.) Linear Regulators – Switching Converters – Switching Controllers – Battery Management – WLED Drivers.
www.richtek.com

JMK specializes in Custom and Standard RFI / EMI FILTERS to meet unique mechanical, electronic and environmental requirements.
www.jmkfilters.com

FCT specializes in Connectors, Contacts, RF Connectors, Hoods, Accessories, Cable Assemblies, Tools for D-Sub and MIL, and MIL Connectors and Circular Connectors
www.fct-group.com

KSI is an industry leader in manufacturing specialty fiber optic interconnect products, components, flexible tubes, and custom assemblies. Our products are widely used in various markets, including telecommunication, medical, military, and industrial automation.
www.kientec.com

Offering world class Contract manufacturing targeting a wide variety of commercial, telco, military and medical applications. State of the art manufacturing facilities located in USA (ITAR and ComSec approved) and Tijuana (Mexico.)
